## SAFETY DATA SHEET

(REACH regulation (EC) n° 1907/2006 - n° 2015/830)

## SECTION 1 : IDENTIFICATION OF THE SUBSTANCE/MIXTURE AND OF THE COMPANY/UNDERTAKING

#### 1.1. Product identifier

Product name : INXFLEX UV FPC ARCTIC WHITE Product code : 101585139.

## 1.2. Relevant identified uses of the substance or mixture and uses advised against

Ink, coating or additive for printing application. It is not suitable for any other industrial usage.

#### 1.3. Details of the supplier of the safety data sheet

Registered company name : INX International France.

Address : 44, avenue de la Commune de Paris .91220 .Brétigny sur Orge .France.

Telephone : +33 1 60 84 27 27. Fax : +33 1 60 84 84 13.

info@inxintl.fr

www.inxinternational.com/fr

#### 1.4. Emergency telephone number : +33 1 45 42 59 59.

Association/Organisation : I.N.R.S. - ORFILA - http://www.centres-antipoison.net.

## **SECTION 2 : HAZARDS IDENTIFICATION**

#### 2.1. Classification of the substance or mixture

#### In compliance with EC regulation No. 1272/2008 and its amendments.

Eye irritation, Category 2 (Eye Irrit. 2, H319).

Skin sensitisation, Category 1 (Skin Sens. 1, H317).

Hazardous to the aquatic environment - Chronic hazard, Category 3 (Aquatic Chronic 3, H412).

This mixture does not present a physical hazard. Refer to the recommendations regarding the other products present on the site.

#### 2.2. Label elements

#### In compliance with EC regulation No. 1272/2008 and its amendments.

Hazard pictograms :

#### 2.3. Other hazards

The mixture does not contain substances classified as 'Substances of Very High Concern' (SVHC)  $\geq 0.1\%$  published by the European CHemicals Agency (ECHA) under article 57 of REACH: http://echa.europa.eu/fr/candidate-list-table

The mixture fulfils neither the PBT nor the vPvB criteria for mixtures in accordance with annexe XIII of the REACH regulations EC 1907/2006.

#### **INXFLEX UV FPC ARCTIC WHITE - 101585139**

## GLYCEROL OXYPROPYLE ACRYLE (OTA)

(Full text of H-phrases: see section 16)

#### **Information on ingredients :**

[1] Substance for which maximum workplace exposure limits are available.

#### **SECTION 4 : FIRST AID MEASURES**

As a general rule, in case of doubt or if symptoms persist, always call a doctor.

NEVER induce swallowing by an unconscious person.

#### 4.1. Description of first aid measures

#### In the event of splashes or contact with eyes :

Wash thoroughly with fresh, clean water for 15 minutes holding the eyelids open.

If there is any redness, pain or visual impairment, consult an ophthalmologist.

#### In the event of splashes or contact with skin :

Remove contaminated clothing and wash the skin thoroughly with soap and water or a recognised cleaner.

Watch out for any remaining product between skin and clothing, watches, shoes, etc.

In the event of an allergic reaction, seek medical attention.

If the contaminated area is widespread and/or there is damage to the skin, a doctor must be consulted or the patient transferred to hospital.

#### In the event of swallowing :

Do not give the patient anything orally.

In the event of swallowing, if the quantity is small (no more than one mouthful), rinse the mouth with water and consult a doctor.

Seek medical attention immediately, showing the label.

#### 4.2. Most important symptoms and effects, both acute and delayed

No data available.

#### 4.3. Indication of any immediate medical attention and special treatment needed

No data available.

#### **SECTION 5 : FIREFIGHTING MEASURES**

Non-flammable.

#### 5.1. Extinguishing media

#### 5.2. Special hazards arising from the substance or mixture

A fire will often produce a thick black smoke. Exposure to decomposition products may be hazardous to health.

Do not breathe in smoke.

In the event of a fire, the following may be formed :

- carbon monoxide (CO)

- carbon dioxide (CO2)

#### **5.3.** Advice for firefighters

Due to the toxicity of the gas emitted on thermal decomposition of the products, fire-fighting personnel are to be equipped with autonomous insulating breathing apparatus.

### SECTION 6 : ACCIDENTAL RELEASE MEASURES

#### 6.1. Personal precautions, protective equipment and emergency procedures

Consult the safety measures listed under headings 7 and 8.

#### For non first aid worker

Avoid any contact with the skin and eyes.

#### For first aid worker

First aid workers will be equipped with suitable personal protective equipment (See section 8).

#### 6.2. Environmental precautions

Contain and control the leaks or spills with non-combustible absorbent materials such as sand, earth, vermiculite, diatomaceous earth in drums for waste disposal.

Prevent any material from entering drains or waterways.

### 6.3. Methods and material for containment and cleaning up

Clean preferably with a detergent, do not use solvents.

#### 6.4. Reference to other sections

No data available.

## **SECTION 7 : HANDLING AND STORAGE**

Requirements relating to storage premises apply to all facilities where the mixture is handled.

Individuals with a history of skin sensitisation should not, under any circumstance, handle this mixture.

#### 7.1. Precautions for safe handling

Always wash hands after handling.

Remove and wash contaminated clothing before re-using.

#### **Fire prevention :**

Prevent access by unauthorised personnel.

#### **Recommended equipment and procedures :**

For personal protection, see section 8.

Observe precautions stated on label and also industrial safety regulations.

Avoid skin and eye contact with this mixture.

#### Prohibited equipment and procedures :

No smoking, eating or drinking in areas where the mixture is used.

#### 7.2. Conditions for safe storage, including any incompatibilities

No data available.

## Packaging

Always keep in packaging made of an identical material to the original.

#### 7.3. Specific end use(s)

No data available.

#### SECTION 8 : EXPOSURE CONTROLS/PERSONAL PROTECTION

#### 8.1. Control parameters

#### **Occupational exposure limits :**

| PNEC :  | 100 mg/kg                    |
| Environmental compartment:  | Waste water treatment plant. |
| PNEC :  | 100 mg/kg                    |

Use personal protective equipment that is clean and has been properly maintained. Store personal protective equipment in a clean place, away from the work area.

Never eat, drink or smoke during use. Remove and wash contaminated clothing before re-using. Ensure that there is adequate ventilation, especially in confined areas.

#### - Eye / face protection

Avoid contact with eyes.

Use eye protectors designed to protect against liquid splashes

Before handling, wear safety goggles with protective sides accordance with standard EN166.

In the event of high danger, protect the face with a face shield.

Prescription glasses are not considered as protection.

Individuals wearing contact lenses should wear prescription glasses during work where they may be exposed to irritant vapours. Provide eyewash stations in facilities where the product is handled constantly.

#### - Hand protection

Use suitable protective gloves that are resistant to chemical agents in accordance with standard EN374.

Gloves must be selected according to the application and duration of use at the workstation.

Protective gloves need to be selected according to their suitability for the workstation in question : other chemical products that may be handled, necessary physical protections (cutting, pricking, heat protection), level of dexterity required.

Recommended properties :

- Impervious gloves in accordance with standard EN374

#### - Body protection

Avoid skin contact.

Wear suitable protective clothing.

Suitable type of protective clothing :

In the event of substantial spatter, wear liquid-tight protective clothing against chemical risks (type 3) in accordance with EN14605 to prevent skin contact.

In the event of a risk of splashing, wear protective clothing against chemical risks (type 6) in accordance with EN13034 to prevent skin contact.

Work clothing worn by personnel shall be laundered regularly.

After contact with the product, all parts of the body that have been soiled must be washed.

#### **SECTION 9 : PHYSICAL AND CHEMICAL PROPERTIES**

#### 9.1. Information on basic physical and chemical properties

## General information :

| Physical state :                                       | Viscous liquid.           |
|--|---------------------------|
| Important health, safety and environmental information |                           |
| pH :   | Not relevant.             |
| Boiling point/boiling range :                          | Not specified.            |
| Flash point interval :                                 | Not relevant.             |
| Vapour pressure (50°C) :                               | Below 110 kPa (1.10 bar). |
| Density :  | 1.8                       |
| Water solubility :                                     | Insoluble.                |
| Melting point/melting range :                          | Not specified.            |
| Self-ignition temperature :                            | Not specified.            |
| Decomposition point/decomposition range :              | Not specified.            |
| 9.2. Other information                                 |                           |

No data available.

| SECTION 10 : STABILITY AND REACTIVIT  | I Y   |
|---|---|
| 10.1. Reactivity  |   |
| No data available.  |   |
| 10.2. Chemical stability  |   |
| This mixture is stable under the recommended  | handling and storage conditions in section 7.   |
| 10.3. Possibility of hazardous reactions  |   |
| No data available.  |   |
| 10.4. Conditions to avoid   |   |
| No data available.  |   |
| 10.5. Incompatible materials  |   |
| No data available.  |   |
| 10.6. Hazardous decomposition products  |   |
| The thermal decomposition may release/form  | :   |
| - carbon monoxide (CO)  |   |
| - carbon dioxide (CO2)  |   |

| 12.6. Other adverse effects                          |   |
| No data available.                                   |   |
|  |   |
| ECTION 13 : DISPOSAL CONSIDERATIONS                  |   |
|  | ontainer must be determined in accordance with Directive 2008/98/EC.                                |
| 13.1. Waste treatment methods                        |   |
| Do not pour into drains or waterways.                |   |
| Waste :  |   |
| risk to water, air, soil, plants or animals.         | ng human health, without harming the environment and, in particular without                         |
|  | nt legislation, preferably via a certified collector or company.                                    |
| Do not contaminate the ground or water with waste, d | lo not dispose of waste into the environment.   |
| Soiled packaging :                                   |   |
| Empty container completely. Keep label(s) on contain | ner.  |
|  |   |
| Give to a certified disposal contractor.             |   |

INXFLEX UV FPC ARCTIC WHITE - 101585139

## **SECTION 14 : TRANSPORT INFORMATION**

Exempt from transport classification and labelling.

- 14.1. UN number
- 14.2. UN proper shipping name
- 14.3. Transport hazard class(es)
- 14.4. Packing group
- -
- 14.5. Environmental hazards
- -
- 14.6. Special precautions for user

## **SECTION 15 : REGULATORY INFORMATION**

#### 15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture

- Classification and labelling information included in section 2:

- The following regulations have been used:
- EU Regulation No. 1272/2008 amended by EU Regulation No. 2018/1480 (ATP 13)
- Container information: No data available.
- Particular provisions :
- No data available.

# - Standardised American system for the identification of hazards presented by the product in view of emergency procedures (NFPA 704) :

NFPA 704, Labelling: Health=2 Inflammability=1 Instability/Reactivity=1 Specific Risk=none

#### 15.2. Chemical safety assessment

No data available.

## **SECTION 16 : OTHER INFORMATION**

Since the user's working conditions are not known by us, the information supplied on this safety data sheet is based on our current level of knowledge and on national and community regulations.

The mixture must not be used for other uses than those specified in section 1 without having first obtained written handling instructions.

It is at all times the responsibility of the user to take all necessary measures to comply with legal requirements and local regulations.

The information in this safety data sheet must be regarded as a description of the safety requirements relating to the mixture and not as a guarantee of the properties thereof.

#### Wording of the phrases mentioned in section 3 :

| H302 | Harmful if swallowed.                                  |
|------|--|
| H315 | Causes skin irritation.                                |
| H317 | May cause an allergic skin reaction.                   |
| H318 | Causes serious eye damage.                             |
| H319 | Causes serious eye irritation.                         |
| H411 | Toxic to aquatic life with long lasting effects.       |
| H413 | May cause long lasting harmful effects to aquatic life |

#### **Abbreviations :**

DNEL : Derived No-Effect Level

PNEC : Predicted No-Effect Concentration

ADR : European agreement concerning the international carriage of dangerous goods by Road.

IMDG : International Maritime Dangerous Goods.

IATA : International Air Transport Association.

ICAO : International Civil Aviation Organisation

RID : Regulations concerning the International carriage of Dangerous goods by rail.

WGK : Wassergefahrdungsklasse (Water Hazard Class).

GHS07 : Exclamation mark

PBT: Persistent, bioaccumulable and toxic.

vPvB : Very persistent, very bioaccumulable.

SVHC : Substances of very high concern.
